

Accu-Lube® Loc-Line Nozzle Kit

FEATURES

- Best for applications which require the applicator to be moveable - flexible nozzle allows precision application to tool currently in use
- Breaks up lubricant for an even, consistent spray and continuous lubrication
- Adjustable length to suit application

APPLICATIONS

- To be used with Accu-Lube applicator systems
- For applications requiring more than one nozzle a second or third kit may be used, or an application-specific nozzle (see nozzles for bandsaws, circular saw blades, etc.)

DIRECTIONS

1) Position the nozzle less than 1" from the cutting tool making sure it is aimed towards the cutting edge. 2) If the machine has moving parts make sure they don't interfere with the nozzle.

HANDLING

Observe good industrial hygiene practices and exercise caution with any sharp edges or pinch points to avoid injury.

STORAGE

Protect parts from loss or damage prior to installation by keeping them in their original packaging. After installation guard from collisions or damage caused by bumps or drops, etc.

DISPOSAL

Parts are made from materials that may be recycled or repurposed once they are cleaned from the MQL lubricant (soap and water)
